

Board of Trustees Candidate bios for 2024 Election

Peter Clark (15309 Golden Rain Drive)

I have lived here in Meadowbrook for a few years with my wife and three boys. I have worked in commercial life science sales for the last 10 years. I grew up in Ladue and went to UMSL. After college, my wife and I moved around a bit but decided that we wanted our boys to grow up in St. Louis and particularly Chesterfield where they can receive a great public education and live in a safe community. We were drawn here because of the large tree lined streets and a multitude of recommendations from friends and family in the area.

I am interested in a board position because I would like to help keep the neighborhood a great place to live. I was always taught to make sure that any place you are at is left in a better condition than when you arrived. I am hoping to get on the board now so I can help with the new indentures, committees that are being started, and to help modernize the board processes and procedures.

Carol Fine (15589 Parasol Drive)

I am seeking a second term on the Board of Trustees. My husband, Gary, and our three children have lived in the subdivision since 1983.

Our children have all graduated from Parkway West and I worked as a teacher assistant in Parkway for 30 years, the last 15 at Claymont before retiring in 2020. We are very comfortable here and enjoy our neighbors and the neighborhood.

I am seeking a second term because I want to continue the projects that I have been part of in the last couple of years. I want to be part of the team to get the Indenture revised and rules made to enforce the principles in that new Indenture. Also, I feel strongly that raising the bar for our home and property appearances (both residential and common) will help all homeowners maintain high property values and enjoy a better way of life.
